Frameworks & Libraries: React.js, Next.js, Tailwind CSS, Bootstrap, Framer Motion, GSAP

Tools & Platforms: Git, GitHub, Vercel, REST APIs, Agile

Other: Arduino / IoT prototyping, Performance optimization, Component architecture

PROFESSIONAL EXPERIENCE

Front-End Developer

Dec 2024 - Present

Cotton Group | Dhaka, Bangladesh

- Develop and maintain a high-performance Order Management System for a live stock-market trading platform using React.js, serving 640 real-time trading users daily.
- Implement responsive trading interfaces, secure authentication flows, and scalable component architecture to support complex financial data displays.
- Optimize rendering performance and ensure cross-browser compatibility for a production-grade financial application.

Front-End Developer

Feb 2024 - Nov 2024

mPair Technologies Ltd. | Chattogram, Bangladesh

- End-to-end frontend development and project coordination across 4+ simultaneous production-grade applications, managing delivery timelines and stakeholder communication.
- Built a dynamic NFT Marketplace with crypto wallet integration using Next.js, delivering a seamless Web3 user experience.
- Developed and optimized a Pharmacy E-commerce platform with cart, checkout, product filtering, and inventory features using Next.js.
- Created a Doctor Prescription Maker web application enabling digital prescription generation, used by 100+ medical practitioners for daily workflows.

Front-End Developer

Jan 2023 - Jan 2024

Neocon Innovation Limited | Dhaka, Bangladesh

- Engineered a scalable stock-market Order Management System using Next.js, focusing on real-time data display, low-latency updates, and responsive performance under heavy loads.
- Designed and developed corporate websites for Neocon Group of Industries with responsive UI, reusable component architecture, and cross-device compatibility.
- Delivered 3 production corporate websites for Neocon Group of Industries.

Front-End Developer

Mar 2022 - Oct 2022

mPair Technologies Ltd. | Chattogram, Bangladesh

- Developed appointment management system for Park View Hospital Chittagong using Vue.js, streamlining patient scheduling workflows 1000+ daily appointments.

- Built secure account management and billing solutions for M. Bhuiyan Construction Co., ensuring data integrity and role-based access control.
- Created 'Flydocx' travel management system using React.js, handling flight bookings and automated itinerary generation for travel agents.
- Contributed frontend and Laravel-based backend integration for 'Sowda' marketplace platform.
